DETAILED ACTION

Summary

On July 27, 2005, an Office Action was mailed to the Applicant rejecting claims 1-23. On August 24, 2005, the Applicant responded with arguments.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-23 are under 35 U.S.C. 102(e) as being anticipated by Praisner (US 2002/0174030), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed August 24, 2005 have been fully considered but they are not persuasive. The Applicant argues that Praisner does disclose reducing the parent spending power by less than the subsidiary spending capacity. In response, the Applicant claims a subsidiary spending power that is configured to consume at least part of the parent spending power. The Examiner is interpreting the phrase "at least part of said spending power" to mean that a minimum portion is consumed, but this may also be interpreted as consuming all of the parent's spending power. The phrase "at least part of" is non-limiting. The system is "configured" to allow the parent spending

power to be reduced by an amount less than the subsidiary spending power, since the capability exists within the Praisner reference to set specific limitations on the accounts.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
